Pile load calculations needed for FDOT - still permit revision still pending. Pile load calculations needed for FDOT - still permit revision still pending. Pile load calculations needed for FDOT - still permit revision still pending. Pile load calculations needed for FDOT - still permit revision stell pending. Pile load calculations telegated besign it and calculations. Its expected to take approximately 30 days to complete Public Works Estmated Construction steeded for FDOT - still permit revised steam, needed for FDOT - still permit revised steam to stamp the plans and finalized heaven we will permit the process of engineer plans and we are in the process of the work. Public Works Estmated Construction steeded for FDOT - still permit heaven heaven we will permit the process and the mapping display are being final Once system is operational IT & Public Works estimate a 45 day implementation once system is operational	
Travis Roberts is leading. FDEP permit revised successfully, Army Core of Enpermit revision still pending. Pile load calculations needed for FDOT - still pender. Roberts has engaged an engineer to stamp the plans and finaliz load calculations. Its expected to take approximately 30 days to content to the work. Public Works Ashley Lake Paving of Road 'substaintially complete' Design is COMPLETE. FDOT is reviewing plans and we are in the process of the needed ROW Piloting 3 devices on 3 various pieces of equipment. Data gathering on test equipment in process, modifications to the process and the mapping display are being final Once system is operational IT & Public Works estimate a 45 day implementating frame to be fully integrated Design is underway. Design Plans - 60% completion of design engineer plans have been submitted & reviewed. Construction scheduled to begin plans have been submitted & reviewed. Construction scheduled to begin December of 2020. Project completion date estimated to be June 2022 St. Johns Ave Resurfacing Palm Ave to CSX Crossing @ Palatka Fire Public Works Road Resurfacing Contracts executed, construction underway	<u>plete.</u>
Mr. Roberts has engaged an engineer to stamp the plans and finaliz load calculations. Its expected to take approximately 30 days to concease the work. Public Works Ashley Lake Paving of Road 'substaintially complete' Design is COMPLETE. FDOT is reviewing plans and we are in the process of the needed ROW Piloting 3 devices on 3 various pieces of equipment. Data gathering on test equipment in process, modifications to the process and the mapping display are being final Once system is operational IT & Public Works estimate a 45 day implementating frame to be fully integrated Design is underway. Design Plans – 60% completion of design engineer plans have been submitted & reviewed. Construction scheduled to begin become of 2020. Project completion date estimated to be June 2022 St. Johns Ave Resurfacing Palm Ave to CSX Crossing @ Palatka Fire Public Works Road Resurfacing Contracts executed, construction underway.	gineers
